

Recombinant Humanized Collagen III Protein

Product Information

Cat

COS-RHNC304

Product Name

Recombinant Humanized Collagen III Protein

Description

Human Collagen III Protein is expressed from Yeast system. It contains partial length or full length alpha 1 chain of type III collagen.

Benefits

Enhance skin strength and elasticity

Purity

>90%

Number of colonies

<1000 cfu/g

Heat-resistant coliform

No

Stability & Storage

Store in cool and dry place. Keep them away from direct sunlight and sources of heat

Efficacy

Stress skin
Moisturizing
Elasticity
Anti-aging

Application

Recombinant Humanized Collagen III Protein

Promotes skin wound healing and reduces scar formation
